

# E. C. Leader

JUNE, 2009

## Our Vision

*The Evangelical Congregational Church will be a dynamic movement of God that is led by pastors and laity who have a burning passion for God and a missionary zeal to reach the lost. We will creatively obey the Great Commission by transforming plateaued and declining churches into healthy, disciple-making churches that are committed to evangelizing the communities to which God has called them. Healthy churches will reproduce themselves by planting churches in least-reached communities.*

*Interdependence will be the distinguishing mark of the Evangelical Congregational Church as local churches network with one another and ministries beyond the E.C. family to proclaim the Gospel to the world.*

## **Reflections on the 7<sup>th</sup> National Conference**

There's a lot to unpack literally and figuratively after the sessions of National Conference end. It's three and half of the fastest days in my year. For me it was a full and very fulfilling time. From what I'm hearing it was more than a "mega-meeting." God did business with us and sent us out with greater clarity about the real business He has for us to do.

Our communion preacher Ramon Mendez helped us see ourselves in the mirror of truth. It's time to let our loving enthusiasm for Jesus and evangelism show through without restraint. By the Spirit dry bones can come to life as a mighty army.

Teacher Gene Wood drilled deep down into the bedrock of what real breakthrough requires. If we're to complete a turnaround to vital ministry we can't keep doing what we've always done. Local churches must resolve the power struggles that stand in the way of obeying God. Pastors must lead and all of us together must embrace taking Jesus to the world as our unstoppable passion.

Gene confronted us with the reality that the church in North America is largely broken. It's not working. Christ stands ready to fix us, but it won't happen without our full cooperation. God's provided a compelling vision of what we want to become. We can see our destination. What lies ahead is the need to lay out the trail that takes us there through initiatives like strategic planning. Then when that path is laid out, we must choose to walk it.

The Episcopal Address and report after report reminded us that while no one can turn things around alone and at once, the transformation does start with each of us. We must individually commit to becoming spiritually, physically, emotionally, and relationally healthy. Together then we can expand the existing islands of "wellness" until they merge into continents of revitalized and reproducing ministry that transforms lost people into fully devoted followers of Christ. I'm looking forward to making this next year's part of that journey with you.

For Him who died and rose for us,

*Bishop Kevin*

## SOME POST CONFERENCE POST SCRIPTS...

- We'd like additional **feedback** from the delegates with regard to the inclusion of the break out sessions for small group discussion in place of the workshop format. Email your brief thoughts to [jeahart@eccenter.com](mailto:jeahart@eccenter.com)
- We're working on it. The **Episcopal Address** and the messages by **Gene Wood** were video taped. The Episcopal Address is now available on DVD. Gene Wood is available on CD Audio. Ordering information can be found in this issue of "The EC Leader." Electronic copies of the address and the accompanying PowerPoint have already been posted to our website.
- Messiah College has asked us to consider moving our **conference dates** up a week so that we'd start on the fourth Tuesday of May. We can retain our usual time slot for next year, but this will mean sharing the facility on Thursday and Friday with an additional group of over 2,000 people. We'll be evaluating our options and deciding as far in advance as possible if a change will be made.

award to the pastors for 2009 will be housed at Church Center. Our thanks to all those who participated. We hope you will continue to walk and record your steps.

### Taking Social Security Benefits Early - New Calculator Available:

One of the biggest decisions facing retirees today is whether they should start drawing their Social Security benefits prior to reaching full "retirement age." While you are permitted to begin Social Security benefits after reaching age 62, you will receive a lesser amount than if you wait until your full retirement age. For example, if your retirement age is 65 and you start drawing benefits at 62, you would face a monthly reduction of 20% in your check. If on the other hand your retirement age is 67 and you begin benefits at 62, your monthly check from Social Security would be reduced by 30%.

The question remains as to whether or not a person should consider taking Social Security benefits "early." The potential retiree must first make some immediate financial decisions. Can you survive off of the reduced Social Security amount? By drawing benefits early, the "retiree" must realize that the amount that he can "earn" will be limited. If you are under full retirement age for the entire year, Social Security will deduct \$1 from your benefit payments for every \$2 you earn above the annual limit. For 2009, that limit is \$14,160.

So by drawing benefits early, you limit the amount that you can earn.

Metropolitan Life Insurance Company has developed a three question test to determine whether you should start collecting Social Security early. This tool, which can be found at [www.metlife.com/fileassets/sscalc](http://www.metlife.com/fileassets/sscalc), is a quick way to determine your breakeven point. The Met Life calculator points out that the potential retiree should consider the long-term impact of reducing his or her monthly payments by 20-30%.

Again, the decision is not easy, but generally it is suggested that you not start drawing your Social Security benefits until you reach full retirement age

IF you are still working. Taking reduced benefits and potentially having those benefits reduced further because of the earnings limit is not worth it financially. To learn more about your Social Security benefits, please visit the Social Security Administration's official website at [www.ssa.gov](http://www.ssa.gov).

As a side note, no matter when you begin receiving your Social Security retirement check,

Medicare benefits are only available after reaching your 65<sup>th</sup> birthday.

Dear E.C. Church family,

We'd like to take this opportunity to thank you again for your generous gift, our trip to Disney World. We loved our experience, as it was our first time there. We flew down to Orlando in March during Katie's spring break week. It was a welcome time of relaxation and fun for our family☺. Some of our highlights included:

1. The airplane ride -- probably Amanda's favorite part of the trip, despite the fact that we visited four different theme parks in Disney World.
2. EPCOT-- a family favorite, especially Dad's, who really enjoyed the world tour (as if he hasn't done enough traveling in his lifetime☺).
3. Our (Katie and Carolyn) highlight was the gorgeous and extremely comfortable resort, complete with pool, fitness center, our own suite, and in walking distance of Downtown Disney and all the shopping!☺
4. Delicious meals out to eat at all different kinds of places (No cooking and cleaning up for mom!).

5. And last, but definitely not least, especially in Lydia's book, meeting the chipmunks, Chip and Dale. She thought they were the cutest thing and could not stop smiling.

These are just a few of our many memories, all captured by Katie's constant obsession with photography. She ended up with over 400 pictures (She'd love to show you them sometime, but the rest of us are sick of them! Haha).

So, thank you again for your gift! It means the world to our family and we will always remember your kindness!

Love,

The Sigmans

Mike & Jenny, Katie, Carolyn, Amanda, & Lydia
