

MMK VBS 2010

LESSON FIVE

NEPAL

Review the week together:

What country are we learning about? Nepal

Where is Nepal? (point to it on the map) North of India and South of China

What is the major religion of Nepal? Hindu

Who is the leader of the E.C. Church in Nepal? Rev. Janga (show picture of his family)

Who takes care of orphans in Nepal that love and want to serve Jesus? (show pictures of children and the orphans that are cared for by Rev. Janga) Pastors and other people in the church.

There are 10 E.C. churches in Nepal at the present time (show map with all the churches listed). Most of the E.C. churches are in the eastern part of Nepal. There are still many places in Nepal that need to hear about Jesus so they need churches in the villages and towns. The Bible says, "How beautiful are the feet of those that bring good news. How can they hear unless someone tells them..." The people in Nepal will only hear of Jesus' love for them by other people in Nepal telling them. Once they hear, they need a place to come to learn more about living for Jesus so they need churches. Pastors and other church members start telling others about Jesus and then they start new churches. Here is a picture of a new church which was a 12 hour walk from the first church. Christians walked all that way to teach other people about Jesus, and then they started a new church in that area. Would you like to walk 12 hours to start a new church?

We are trying to raise \$20,000 to help pastors to start new churches so that more people will learn about Jesus and follow Him. Close in prayer for the pastors as they start new churches.
